Getting to know your TR-TWS R1 Speaker

Charging your speaker

1. Insert the small USB end of the power cable into the charging socket on the speaker. Slot the large end of the power cable into a USB slot on your computer or your mobile phones power supply.
2. Leave the speaker to charge until the charge indicator light turns off. Now the speaker is fully charged and ready for use.

Using your speaker

1. Check the On/Off switch is set to ON
2. Check the Bluetooth Status LED is flashing – this indicates that there are no other devices connected to the speaker and it is ready to be paired. If another device is paired (the Bluetooth LED indicator is flashing slowly), press and hold the Call Answer button to enter pairing mode.
3. In your phone's Bluetooth settings, search for TR-TWS R1, and pair your phone with the speaker (please consult your phones user manual for specific instructions on how to pair with bluetooth devices)
4. Once pairing has been completed, the bluetooth status LED will flash at a slow rate (once every other second).
5. Select and play your music on your phone. Adjust the volume on your phone to suit your listening requirements.
6. When you have finished listening to the TR-TWS R1, switch the power off.

Answering Calls

1. Should you receive a phone call whilst using the TR-TWS R1, you can answer it and talk hands-free by pressing the Call Answer button on the bottom of the speaker
2. To end you call, and return to listening to music, press the Call Answer button on the bottom of the speaker again.

Note: The background noise may increase when the battery charge level is low. Some audio devices such as laptops may generate increased noise at higher volumes.

TWS pair method

1. Connect Two Speaker

You can share your music wirelessly by connecting two TR-TWS R1 speaker to create a bigger sound stage environment.

Power on the first TR-TWS R1 speaker, press and hold the button until it says: "ready to pair". Double click the button, the TR-TWS R1 speaker white LED starts flashing, the speaker says "sharing" and enters linking searching mode. Turn on the power of second TR-TWS R1 speaker, press and hold the button until it says: "ready to pair" (the speaker must not be paired to any other Bluetooth device). Once successfully linked, your TR-TWS R1 will play a beep sound, and the speaker LED indicate solid white. Then connect your phone to TR-TWS R1, you can enjoy playing your music on both speakers. If two speakers have been connected before, they will automatically reconnect after power on .

2. Disconnect Two Speaker

If you double click the button on the Master or the Slave, the Slave will say: "You are disconnected" . The Master and Slave speaker are back to normal Bluetooth mode.
